The image features a large, intricate network of diverse human icons (men and women of various ethnicities and ages) connected by a web of dashed lines. The icons are scattered across the frame, with a higher density in the center. A prominent white rectangular box with a black border is centered horizontally and vertically, containing the text "COORDINATED ASSESSMENT SYSTEM DATA UPDATES" in a bold, black, sans-serif font. The overall composition suggests a global or multi-stakeholder network.

**COORDINATED ASSESSMENT SYSTEM
INTRODUCTORY WEBINAR PROPOSAL**

BACKGROUND

- One of the recommendations that came out of the 2019-20 Coordinated Assessment System (CAS) evaluation was that the CoC should create a **mandatory recorded webinar** on the CAS for all new program staff.
- This webinar would provide a **high-level overview** of the system and relevant provider responsibilities.
- Currently, the **only training** that the CoC offers on the CAS is combined with a training on administering the VI-SPDAT.
- Desired outcomes = more **consistent** assessments, more **successful referrals**, better **communication** with clients about the system.

WHY COORDINATED ASSESSMENT?

- HUD requirement for CoCs
- Ideally prioritizes for limited resources fairly, lowers barriers to access, streamlines referral process, and matches participants to program that best meets their needs
- Important source of data
