

Mental Health Service Act Housing Program

Program Description

The Mental Health Services Act Housing Program (MHSA Housing Program) provides funding for the capital costs and operating subsidies to develop permanent supportive housing for persons with serious mental illness who are homeless, or at risk of homelessness, and who meet the MHSA Housing Program target population criteria.

Program Funds

- ◉ Will Provide up to \$75M annually to finance the development, acquisition, construction or rehabilitation of permanent supportive housing & up to \$40M annually for Operating Subsidies.
- ◉ The initial funding from DMH will be \$400M.
- ◉ Each County will have its own planning estimate of MHSA Housing Program funds.

Permanent Supportive Housing

- ⦿ Supportive housing means housing with no limit on length of stay and that is linked to on-site or off-site services.
- ⦿ Services must help the tenant retain the housing, support recovery and resiliency, and maximize the ability to live and work in the community.

Target Population

The target population is defined as adults, older adults, transition-age youth with serious mental illness, children with severe emotional disorders and their families, who at the time of assessment for housing services meet the criteria for MHSA Community Services and Supports (CSS) in their county of residence and are homeless or at risk of homelessness.

Target Population

Homeless is defined as:

- ⦿ living on the streets or,
- ⦿ lacking a fixed and regular night time residence.
This includes shelters, motels and other temporary living situations in which the individual has no tenant rights.

Target Population

At risk of homelessness includes the following:

- ⊙ transition-age youth exiting child welfare or juvenile justice systems;
- ⊙ individuals discharged from:
 - hospital, including acute psychiatric hospitals, psychiatric health facilities (PHF);
 - skilled nursing facilities (SNF) with a certified special treatment program (STP) for the mentally disordered;
 - mental health rehabilitation centers (MHRC);

Target Population

- crisis and transitional residential settings; and
 - city and county jails.
- ⦿ Individuals temporarily placed in a Residential Care Facility upon discharge from one of the above.
 - ⦿ Individuals who have been assessed and are receiving services at the County Mental Health Department, and who have been deemed to be at imminent risk of homelessness, as certified by the County Mental Health Director.

Housing Models

The MHSA Housing Program provides funding for both Rental Housing and Shared Housing Developments.

Shared Housing Developments are rented to and shared by two or more unrelated adults, each of whom is a member of the MHSA Housing Program target population.

A Shared Housing Development must:

- ◉ provide a separate lockable bedroom for each adult,
- ◉ ensure each adult tenant has a lease and is responsible for paying rent,
- ◉ be restricted for occupancy to members of the target population, and
- ◉ have a kitchen, bathroom and common living space.

Housing Models (continued)

Rental Housing Developments are apartment buildings with 5 or more units.

A Rental Housing Development includes:

- ◉ both general occupancy buildings and special occupancy buildings,
- ◉ all units, including SRO units, shall include at a minimum, a sleeping area, a kitchen area, bathroom, and living space, and
- ◉ restriction for occupancy to members of the target population.

Types of Rental Housing Developments

Single Population Development

A development in which all units are dedicated to housing the MHSA Housing Program target population. This includes all Shared Housing and some Rental Housing Developments.

“Mixed Population” Development

A Rental Housing Development in which 5 units, or 10% of the units, whichever is greater, are targeted to members of the MHSA Housing Program target population. In buildings with more than 100 units, at least 10 units must be restricted for members of the target population.

Funding Limits

- The MHSA Housing Program will fund one-third of the costs of a Rental Housing Development up to a maximum of \$100,000 per restricted unit.

At a county's request, amounts greater than \$100,000, up to 1/3 of total development costs per targeted rental housing unit, will be considered on an exception basis.

- The MHSA Housing Program will fund the total cost for Shared Housing up to a maximum of \$100,000 per bedroom.
- Up to \$100,000 in a Capitalized Operating Subsidy per MHSA Housing Program restricted unit.

Predevelopment Loans

- Up to \$500,000 for Rental Housing Developments
- Up to \$200,000 for Shared Housing Developments

With An MHSA Housing Program loan commitment,

- Evidence of all other permanent financing commitments, and
- Evidence of site control and evidence of appropriate zoning.

Terms

- Two years or until construction loan closing, whichever is sooner;
- 3% interest, deferred until construction loan closing and forgiven at construction loan closing.

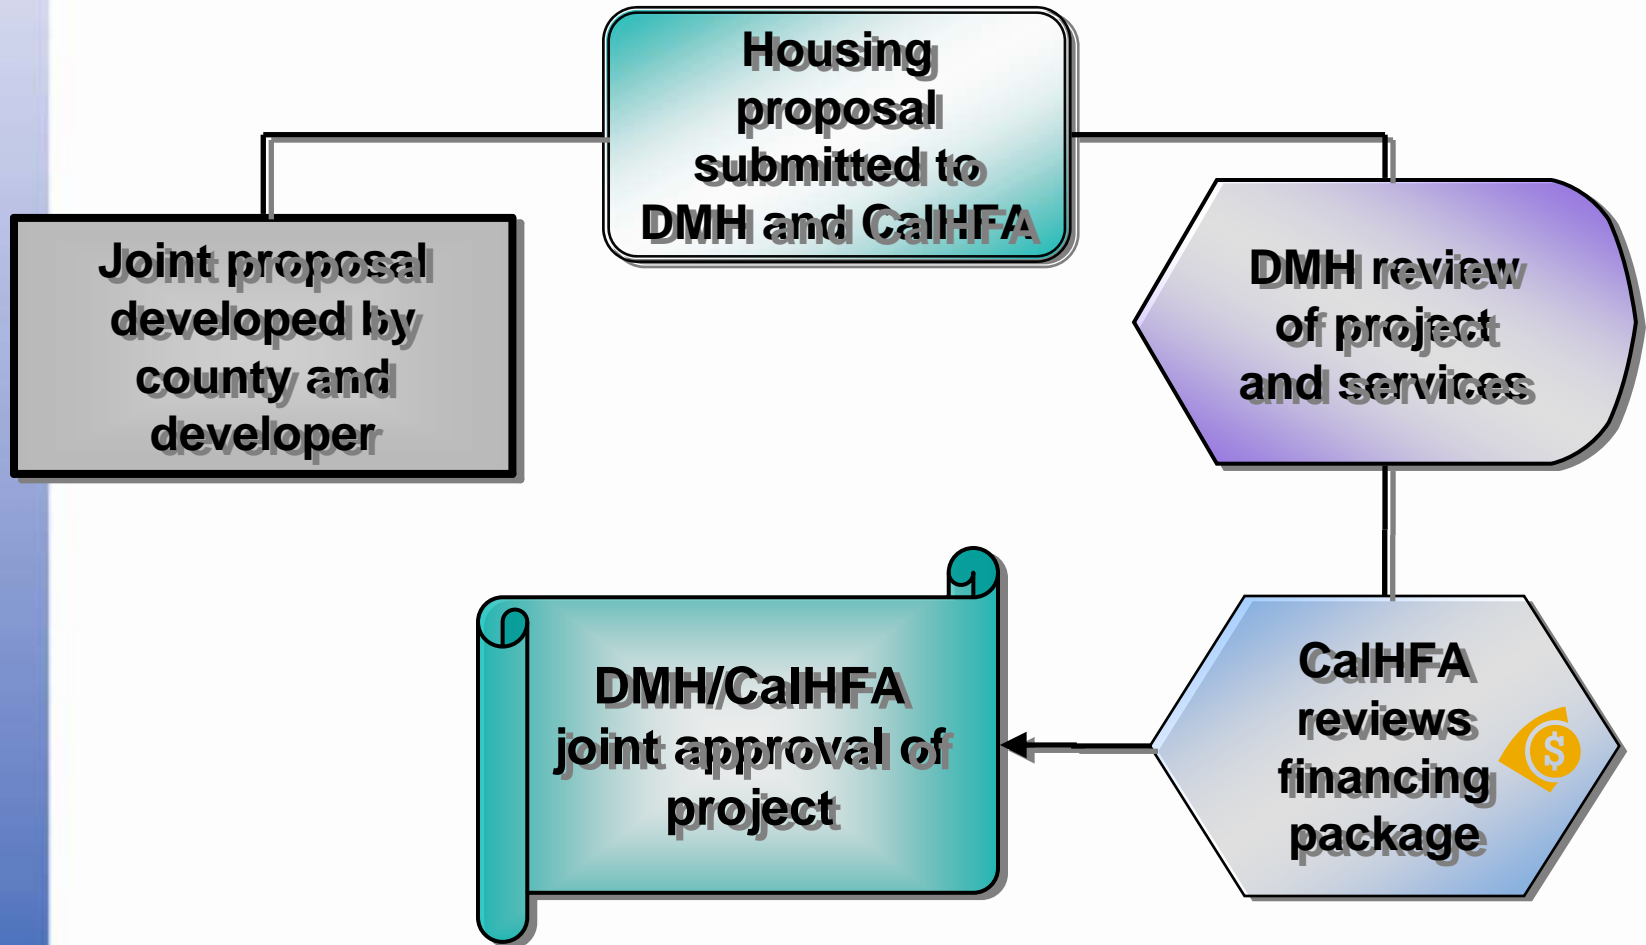

Capitalized Operating Subsidies

- ◉ Up to \$100,000 per MHSA Housing Program restricted unit for Rental Housing Developments. The maximum amount per Shared Housing Development is yet to be determined but will not exceed \$100,000.
- ◉ Subsidy funds are only available for units that also receive loans from the MHSA Housing Program.
- ◉ Preference will be given to Rental Housing Developments.
- ◉ To receive a capitalized operating subsidy, the developer must apply for and be denied rental or operating subsidies from all other available and appropriate sources in at least one cycle

Capitalized Operating Subsidies (continued)

- Capitalized operating subsidy funds may be used to cover the gap between rental income and operating costs of MHSA Housing Program targeted units.
- Capitalized operating subsidies will be sized to provide 18 to 20 years of subsidy, up to the \$100,000/unit cap.
- CalHFA will determine the amount of capitalized operating subsidy award a development receives based on the development's first-year operating budget, a two-and-one-half (2.5) percent annual income escalator, a three-and-one-half (3.5) percent annual cost escalator.
